

NAN SOLUTIONS

SmartRank

Central Idea & Pipeline

- Most important demand indicators for the client
→ simple list for salesman
- Simplicity, we use tools Inibsa is familiar with
→ potential

Data, variables, hypothesis

Data used

TIME SERIES

- Mean interval of time between purchases
- Deviation from mean

POTENTIAL

- Impact indicator

Hypothesis

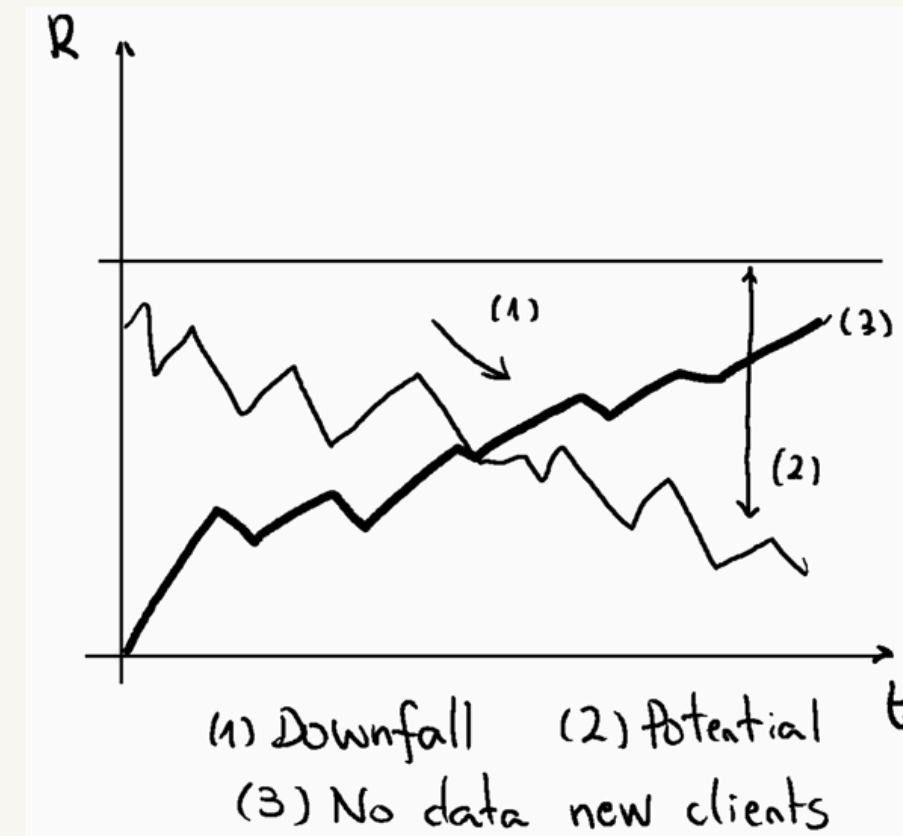

3 DIFFERENT SCENARIOS

- 3 different interests for Inibsa

NOISE TREATMENT

- Very irregular purchase of commodities → Non client
- Very long time intervals between purchases → Non client
- Seasonality

Intangibles

Features & Prioritization

COMM-F1

- Temporal variables in company/product
- Sensible to Commodities

$$F_1^{i,n} = \left(\frac{\Delta t}{\langle t^{i,n} \rangle - \sigma_t^{i,n}} + \frac{\Delta t}{\langle t^{gr,n} \rangle - \sigma_t^{gr,n}} \right) A^i$$

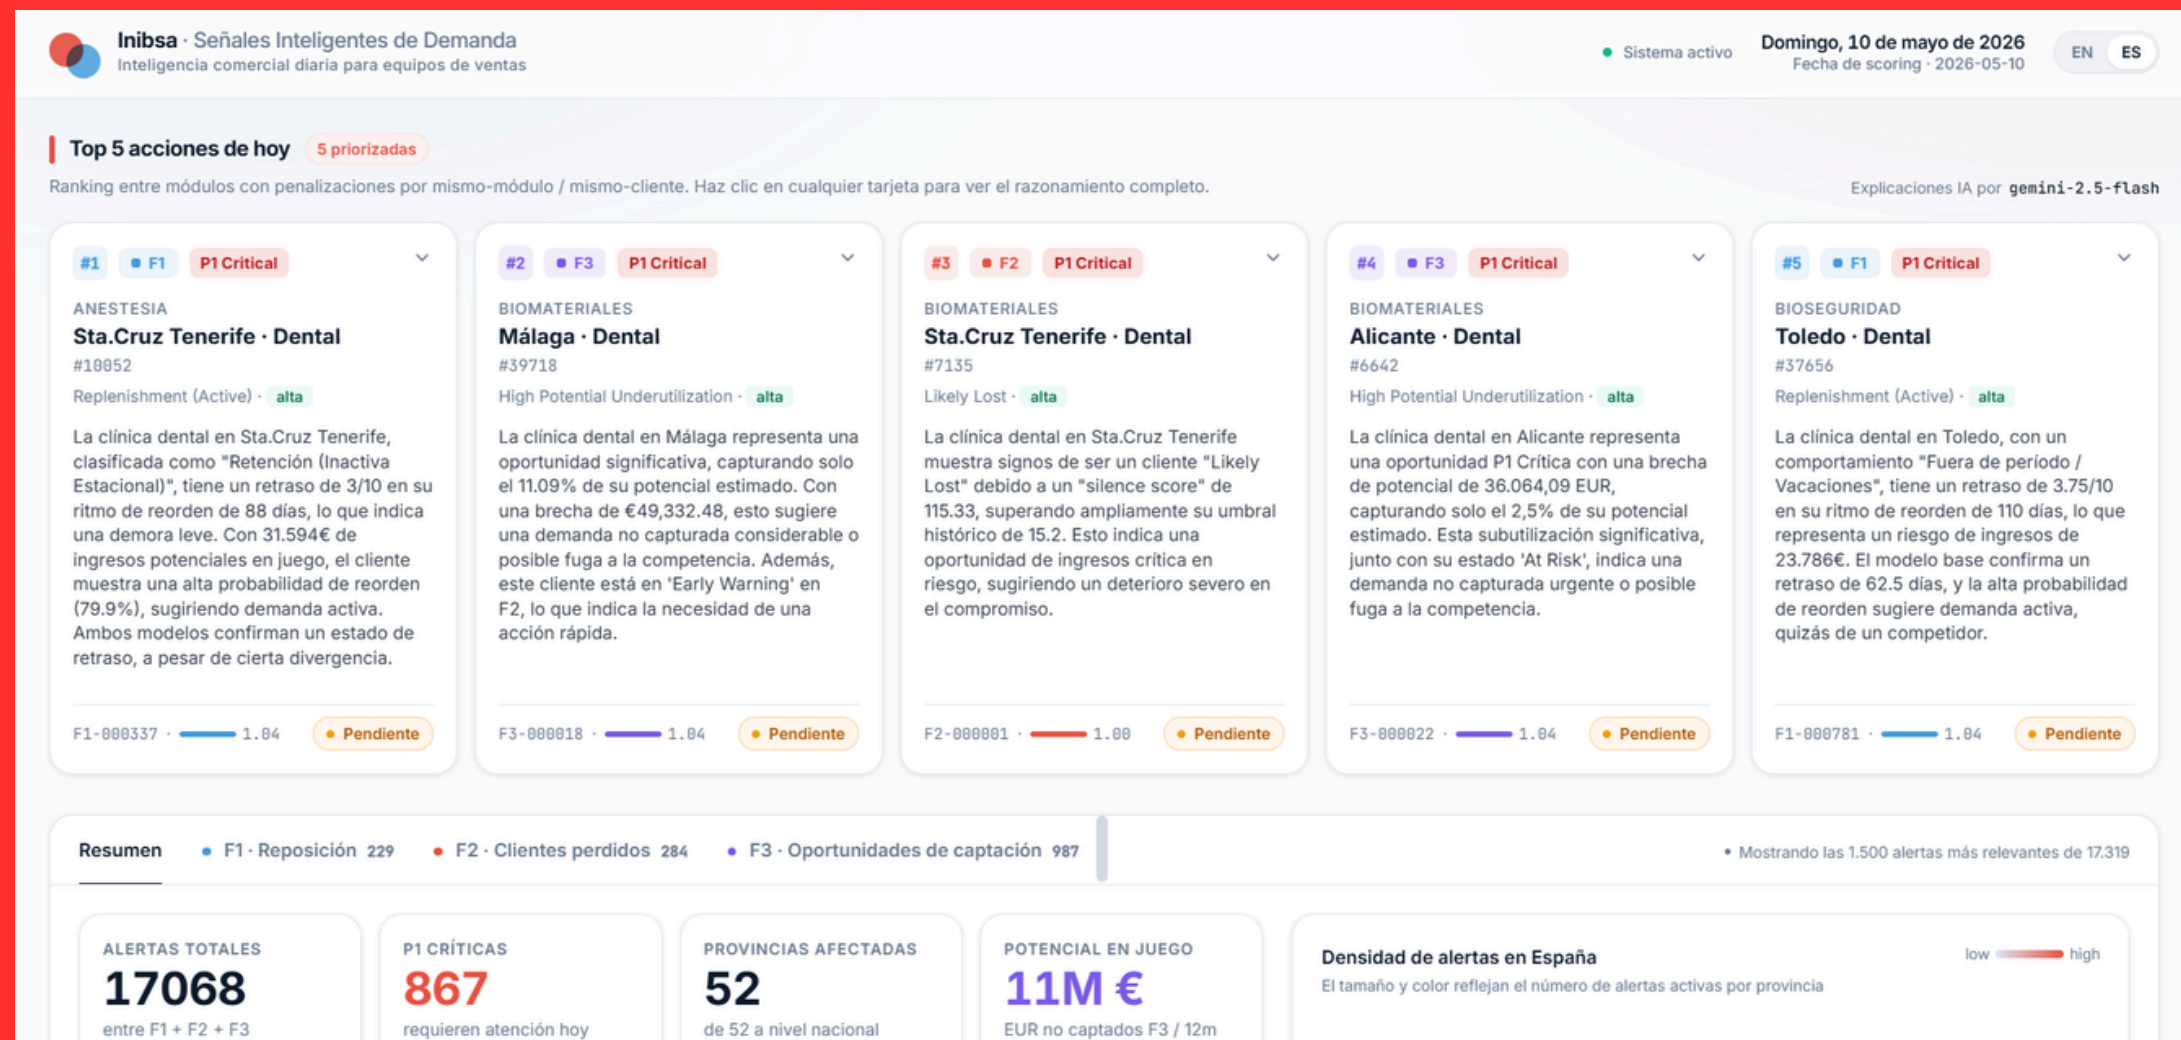

TECH-F2

- Volume variations with respect to previous trends
- Sensible to Technical purchases

PRIORITIES

- Combination of the 3 indicators

The Solution
